

Dear City Council,

I strongly support the Plaza de Panama Project and think it presents the best opportunity in decades to reclaim the public spaces in Balboa Park from cars and return them to pedestrian use. It will truly transform the visitor experience in the park. Taking back the plazas has been part of Balboa Park plans for the last 50 years, and now we have private funding identified to make it happen! Let's not lose this opportunity to finally implement this vision, and celebrate the 2015 Centennial with improvements that will benefit the park for the next 100 years. I urge you to approve the Plaza de Panama Project!

Sincerely,

Rod Smith

San Diego CA 92121

Dear City Council,

I strongly support the Plaza de Panama Project and think it presents the best opportunity in decades to reclaim the public spaces in Balboa Park from cars and return them to pedestrian use. It will truly transform the visitor experience in the park. Taking back the plazas has been part of Balboa Park plans for the last 50 years, and now we have private funding identified to make it happen! Let's not lose this opportunity to finally implement this vision, and celebrate the 2015 Centennial with improvements that will benefit the park for the next 100 years. I urge you to approve the Plaza de Panama Project!

Sincerely,

MARK GAUVIN
